**Elegance in design  
and high performance**

# K-RANGE

## Unrivalled speed, performance and quality

Kalea Plus guarantees high performance, high quality and immediate ease of use. With Kalea Plus, enjoying drinks based on coffee beans and fresh milk has never been so simple. The application of innovative technologies, combined with the tradition and culture of Italian espresso coffee, delivers unrivalled results for even the most discerning of palates, providing a unique pleasure, sip after sip.

Thanks to its configurations, Kalea Plus has the versatility to become a valuable ally in a wide variety of situations. In the breakfast room, it is on hand for guests to help themselves to delicious drinks; or, in served mode, staff use Kale Plus to create unique espresso based drinks.

# KALEA PLUS

## Innovation at the service of taste

Thanks to the patented Z4000 coffee group, the self-regulating grinders and the innovative Milk PerFoamer system, Kalea Plus offers drinks based on coffee beans and fresh milk. The intuitive touch screen interface guides the user in selecting their favorite drink. In addition to the possibility of applying different backgrounds for the touchscreen, Kalea Plus allows the creation of a fully customized drinks menu.
