LA PRECISA

Ultimate Precision

EVOCA
GROUP

la Precisa

LA PRECISA:

- In the 1930s Achille Gaggia found a way to create the perfect Italian espresso
- Today, Gaggia Milano brings coffee professionals a range of machines that combine state of the art technology with sophisticated design

la Precisa

ELEGANT & CLEAN LINES

- Design by Bonetto

la Precisa

DESIGN PAIRED WITH PRACTICALITY

- Elegant Italian style
 - Designed by Bonetto
- Ergonomic and easy to use
- Reliable & easy to maintain

PREMIUM DESIGN FEATURES

- Premium finishing:
 - Side panels painted in traditional Gaggia red
 - Chrome group covers, etc
- OLED alphanumeric display
- LED-illuminated working area

ERGONOMIC AND EASY TO USE

- Ergonomic steam knob : quarter turn with dual position:
 - Turning to the left, the knob remains open for milk steaming
 - Turning to the right allows a quick purge as the knob springs back on itself

POWERFUL PERFORMANCE

- Traditional thermosyphonic hydraulic circuit
- Temperature sensor control (NTC) of the steam boiler
- Possible to dose/pre-programme water
- 'Pure' hot water for tea: hot water is delivered by mixing steam with 'pure' cold water

RELIABLE AND EASY TO MAINTAIN

- Designed for easy maintenance:
 - Easy to remove side panels
 - Access to CPU on left side
- Software updates via USB

STANDARD & TALL CUP VERSIONS

- Both versions keep the same design & ergonomics
- Electrical cup warmer on standard version
- Tall cup version suitable for 14.5cm (eg 16oz) coffee-to-go paper cups

SPECIFICATIONS

	2 Groups	2 Groups Tall Cup	3 Groups	3 Groups Tall Cup
Width	758mm	758mm	978mm	978mm
Depth	589mm	589mm	589mm	589mm
Height	563mm	563mm	563mm	563mm
Weight	58kg	58kg	75kg	75kg
Voltage	220-240 / 380-415V	220-240 / 380-415V	220-240 / 380-415V	220-240 / 380-415V
Maximum Absorbed Power	3450W	3450W	4800W	4800W
Steam Boiler Power	3200W	3200W	4500W	4500W
Steam Boiler Capacity	13L	13L	20L	20L

KEY FEATURES

- 5 programmable direct selection buttons per group
- OLED alpha numeric display
- Illuminated working area
- Volumetric dose programming
- Filters warning
- PID control of boiler temperature
- Electric cup warmer (standard version)
- 2 steam wands
- Hot water economiser
- Height-adjustable feet
- Energy saver: manual Stand-By
- Tall cup version also available

PRODUCT RANGE

Code	Description
9S0450	La Precisa – 2 Group (with cup warmer)
9S0451	La Precisa – 2 Group, Tall Cup (no cup warmer)
9S0550	La Precisa – 3 Group (with cup warmer)
9S0551	La Precisa – 3 Group, Tall Cup (no cup warmer)

LA PRECISA VS LA DECISA

COMPARING THE 2 MODELS

COMPARING LA PRECISA TO LA DECISA

- Superficially these machines are very similar
 - Same size and many overlapping features
 - However, there are some key distinctions:
 - Display
 - Design details
 - Hot water wand

LA PRECISA VS LA DECISA

- Display
 - La Precisa is equipped with an OLED display (no display on La Decisa)
 - Displays are a crucial selling point, as they allow practical operations:
 - Time delivery reading, alarm & technical programming
 - Easier to make adjustments

LA PRECISA VS LA DECISA

- Finishing & Design
 - Painted side panels (vs ABS/plastic)
 - Chromed group covers (vs black plastic ones)
- Hot Water Wand
 - La Precisa allows water to be dosed/pre-programmed. Hot water is delivered by mixing steam with 'pure' cold water, which comes directly from the water mains; giving a more consistent and fluent flow, and the temperature can be adjusted.
 - La Decisa relies on a knob for manually opening and closing the water flow from the steam boiler
