

SOLISTA

Machine Presentation

HIGHLIGHTS

Solista is the new Necta table top model that meets the needs of small locations thanks to newly developed technologies and high tech features such as:

- Compact footprint, suitable for locations with limited space
- Innovative and elegant design
- Advanced user friendly interface
- Fully automatic service with drinks prepared from fresh coffee beans
- Ability to offer a wide variety of drinks

HIGHLIGHTS

- Highest level of operational efficiency thanks to the fact that coffee hopper & waste containers capacity's are perfectly balanced
- Can offer either 7oz or 9oz drinks
- Patented Z4000 brewing system and Freemix instant technology
- High throughput thanks to the 600 cc boiler

DESIGN AND USER INTERFACE

Solista has an elegant and high tech design thanks to:

- Modern and eye catching aesthetics on the two large side panels which can be easily customized
- Chromium-plated frame around the selection area
- Cup station has a sensor for using own cup
- Elegant central area of the machine with 10 direct selection buttons
- Double LED lights with the possibility to change the lights colour
- Visible coffee beans

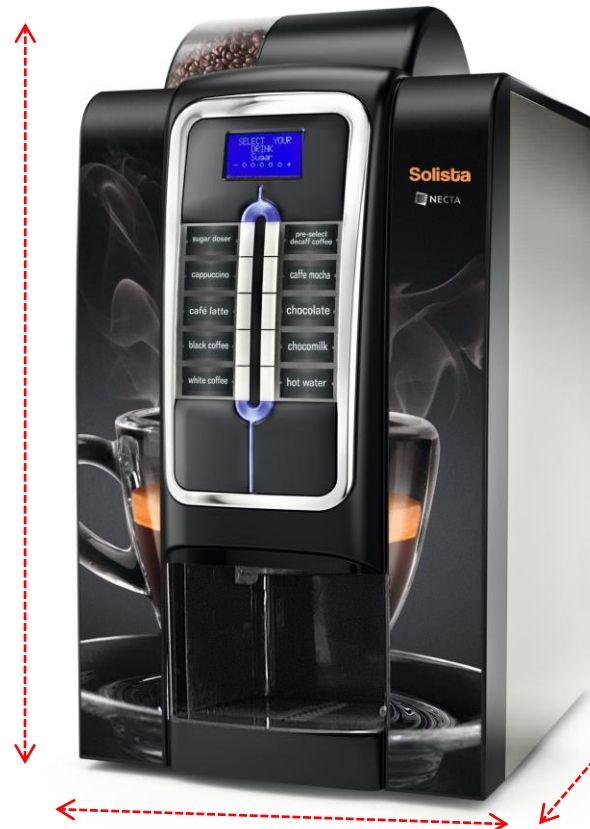

DIMENSIONS

Solista has compact dimensions and weight:

Height 750 mm
(1,000mm with coffee
hopper open)

Weight 42 Kg ca

Width 410 mm

Depth with
door open
855 mm

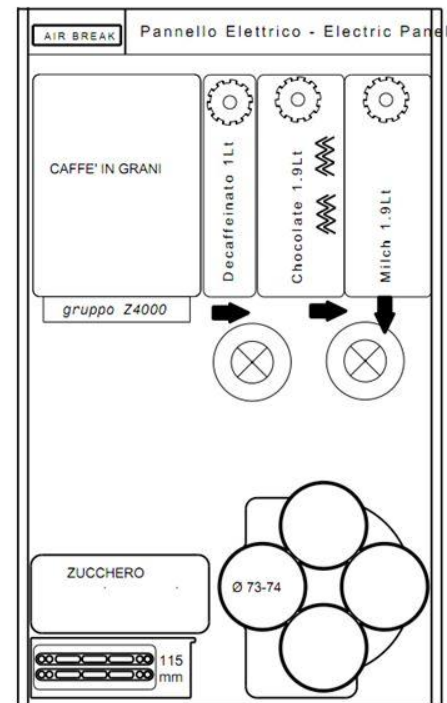

Depth 564 mm

KEYBOARD SELECTION

Pre-Selection Decaff Coffee	1	⊙	Espresso	6	⊙
Cappuccino	2	⊙	Espressochoc	7	⊙
Café Latte	3	⊙	Chocolate	8	⊙
Coffee Black	4	⊙	Chocomilk	9	⊙
Coffee White	5	⊙	Hot Water	10	⊙

CAPACITY

The top of the machine can be completely opened thus allowing an easy refill of the containers without removing them

Designed throughput is 160 drinks before cleaning, emptying or reloading is required

INNOVATION: NEW Z4000 COFFEE BREWER

- Superb quality coffee which remains unchanged cup after cup.
- The compact boiler grants a perfect temperature of the first coffee and avoids overheating of the next drinks.

INNOVATION: NEW FREEMIX INSTANT TECHNOLOGY

- New mixers and adjustable motordosers whose speed can be customized according to the local needs (quality vs speed):
powders flow, mixing speed
- New single powder canisters with 1 litre and 2 litre capacity

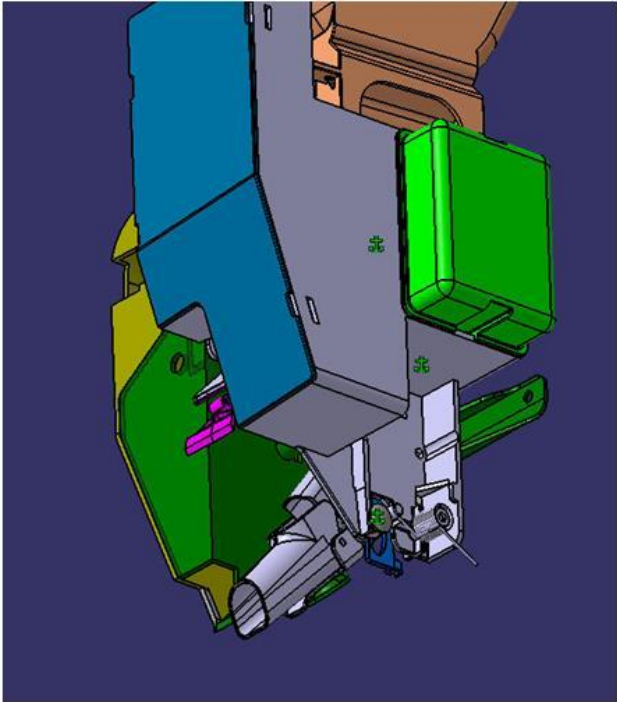

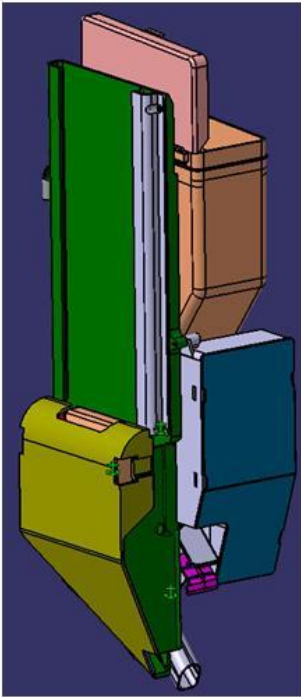

- The parts which must be activated (**green**) and cleaned (**blue**) are coloured so that the technician can easily understand which operation should be done
- Blue pipes go out from coffee group and from mixer to nozzles

INNOVATION: NEW SUGAR AND STIRRER DISPENSERS

- Possibility to clean sugar nozzle without removing any other part or screw

- New longer stirrers column with optimized capacity

THE RANGE

Solista is a welcome addition to N&W's already established table top range. This is how the machine fits in with our other machines:
