DESIGN & USER INTERFACE

- Modern and elegant design in line with Necta's Opera and Festival Classic

- Capacitive keypad backlit by blue LED's

- Cabinet illuminated by LED tubes

- Sound signal at the end of the dispensing cycle, to indicate the product selection is complete

- Possibility to install up to three payment systems

- Rolling price display for simplified price changes

ELECTRONIC TRAY LABELS (ETL)

Electronic Tray labels (ETL) can help boost sales, improve the consumer experience and simplify operating tasks:

- Clear digital prices which are easy to read

- You can highlight product promotions, set automatic price changes and show basic nutritional information which all help to boost sales

- The planogram can be shown underneath each selection which can help the operator when filling the machine

- You can remotely manage the price changes and product messages by Vend Track
